**CLEAR SKIES.  
CLEAR SCHEDULE.**

There's nothing like spending a long day outdoors with loved ones, savoring good food, refreshing drinks, and great company. That's why every True undercounter refrigerator is UL-rated for outdoor use — ensuring you'll always have plenty of ice, so you can relax and focus on what really counts.

This is why we designed the Clear Ice Machine to produce up to 85 pounds of large, slow-melting, crystal clear cubes per day—more than any other residential ice machine—so your outdoor entertaining stays effortless, your drinks stay chilled, and the good times keep flowing.

## THE PERFECT SERVE

Beverage connoisseurs from Portland, Oregon to Portland, Maine are passionate in their praise of the True Beverage Dispenser, not only for its good looks but also for its precision, consistency, and versatility.

Whether it's late November or the dog days of summer, you get the same perfect serve every time: a consistently frosty, refreshing beverage pulled perfectly to 33° as it passes through our air-cooled tower and into your pint glass. Single tap or dual tap, boasting beer or cold brew, your True Beverage Dispenser is precise, consistent, and ready for whatever's on tap.

## OUTDOOR LIVING ALWAYS ON TAP

# THE TRANSFER

At True, we talk about “the transfer,” as that place between where you are and where you want to be. With True and Caliber in your outdoor kitchen, there’s no more balancing act as you venture outside from the indoor kitchen – cutting board in hand, full of chopped and seasoned veggies and proteins; oh, and two glasses of wine.

We design every refrigerator with a “point of use” philosophy, which means that where food and drink are enjoyed is where food and drink should be stored, and for many of us, that’s outdoors. From refrigerator drawers and beverage dispensers to clear ice machines, every True product performs as well in your poolside cabana, BBQ oasis, or desert patio as it does in your indoor kitchen.

With True Refrigeration and Caliber Grills working side by side, we knew the process of outdoor cooking and entertaining would become that much simpler. That’s why every True undercounter refrigerator is UL-rated for outdoor use, ensuring durability and convenience—especially when seamlessly integrated into your outdoor kitchen alongside a Caliber Grill.

Eliminate the transfer; keep your food and drink exactly where you want to enjoy it. On the patio, the deck, and within reach of the grill in the outdoor kitchen of your dreams.
